# Curriculum Vitae

- Name: Bishwajit Paul
- Address: 123 Web Street, Tech City, CA 12345
- Phone: (+88) 01712 80 92 79
- Email: paul.bishwajit09@gmail.com
- LinkedIn: linkedin.com/in/johndoe
- GitHub: github.com/johndoe
- Portfolio: www.johndoedev.com

Professional Summary

A highly motivated web developer with 5+ years of experience in designing, developing, and maintaining web applications. Proficient in modern web technologies including HTML, CSS, JavaScript, React, and Node.js. Strong background in both front-end and back-end development, with a focus on creating user-friendly, scalable, and high-performance applications. Excellent team player with problem-solving abilities and a passion for coding.

Technical Skills

Front-end:

- HTML5, CSS3, JavaScript (ES6+), TypeScript
- React, Tailwind CSS, Bootstrap
- Responsive Web Design, UI/UX principles

Back-end:

- Node.js, Express.js, RESTful APIs
- MongoDB, MySQL, PostgreSQL, Firebase

Tools & Technologies:

- Git, GitHub, GitLab
- Postman, Swagger

Version Control:

- Git, GitHub

Professional Experience

Web Developer
Tech Innovations, San Francisco, CA
July 2020 – Present

- Developed and maintained scalable web applications for clients across various industries.
- Led front-end development using React, Tailwind CSS, and Redux for a project management tool that increased user engagement by 25%.
- Implemented RESTful APIs and integrated third-party services such as Stripe for payment processing.
- Collaborated with UI/UX designers to deliver responsive and visually appealing designs.
- Utilized AWS and Docker for efficient deployment and scaling of web applications.
- Reduced page load times by 30% through performance optimization techniques, including lazy loading, code splitting, and image optimization.

Junior Web Developer
Creative Code, New York, NY
May 2017 – June 2020

- Assisted in the development of websites and web applications using HTML, CSS, and JavaScript.
- Built interactive and responsive UIs using React and Bootstrap for e-commerce platforms.
- Worked closely with back-end developers to integrate APIs and ensure seamless data flow between front-end and server-side logic.
- Debugged and resolved cross-browser compatibility issues, improving user experience across multiple platforms.
- Created reusable components and maintained code quality through testing and version control.

Education

Bachelor of Science in Computer Science
University of California, Berkeley
Graduated: May 2017

- GPA: 3.8/4.0

Certifications

- React Developer Nanodegree – Udacity, 2020
- MongoDB for Node.js Developers – MongoDB University, 2019

Projects

Portfolio Website
www.johndoedev.com

- Designed and developed a personal portfolio using React, Tailwind CSS, and Node.js to showcase web development projects.
- Integrated Firebase for authentication and MongoDB for back-end data storage.

Task Management Application
GitHub Repo

- Built a full-stack task management tool using React, Node.js, and MongoDB that allows users to create, edit, and delete tasks.
- Implemented user authentication, role-based permissions, and real-time updates with Socket.io.

Soft Skills

- Problem-solving
- Team collaboration
- Time management
- Attention to detail
- Strong communication skills

Languages

- English (Fluent)

Hobbies & Interests

- Open-source contribution
- Blogging about web development trends
- Attending tech meetups and hackathons
